

Post Evaluation Questionnaire

For the following questions, Users will select how much they agree with the statement.

- Taking notes during meetings is important to me (use to group up answers)
- The app was too simplistic
- The app let me focus more on thinking about what groceries I needed
- The process of creating a room was difficult
- Finding the grocery list after I created it made sense to me
- Connecting to another group was difficult
- Voice control is something I would find embarrassing to use in private
- Voice control is something I would find embarrassing to use with a group
- I would recommend this app to a friend
- I would use this app in an academic environment
- I would use this app in a professional environment
- I could determine how to reorganize ideas quickly

The final question we will ask is “What would you use this app for”. We will provide the user with the following options.

- Personal study sessions
- Group study sessions
- Personal professional memos
- Group professional sessions (rephrase?)
- Personal non-professional/non-academic purposes
- I would not use the app
- Other (Please specify)
